<tr>
<td>CA</td>
<td>CalWORKs Home Visiting Program: The Budget provides $89.6 million in a mix of federal funds and General Fund to provide home visiting services to eligible CalWORKs families in 2019-20 to serve approximately 18,500 cases. Services will be provided to pregnant women and families with a child under the age of two for up to 24 months. The services are intended to help young families reach self-sufficiency by improving family engagement practices, supporting healthy development of young children living in poverty, and preparing parents for employment. Participating counties will leverage existing, evidence-based program models currently being implemented across the state. Approximately 15,000 cases will be served on an annual basis beginning in 2020-21. The Budget recognizes the permanent nature of the Home Visiting program.</td>
<td>☑</td>
</tr>
<tr>
<td>CA</td>
<td>Black Infant Health Program: Provides $7.5 million ongoing General Fund and an additional $12 million in DHCS reimbursements for Medi-Cal eligible activities in the Black Infant Health and the California Prenatal Equity Imitative. This funding is to improve African-American infant and maternal health through case management services, including home visiting.</td>
<td>☑</td>
</tr>
<tr>
<td>CA</td>
<td>CA Home Visiting Program: The Budget provides $23 million ongoing General Fund and $22.9 million in DHCS reimbursements for Medi-Cal eligible activities to expand the California Home Visiting Program. This funding is for the expansion of home visiting services with a focus on low-income, young mothers and the use of a wider range of home visiting models based on varying family needs.</td>
<td>☑</td>
</tr>
<tr>
<td></td>
<td>Master Plan for Early Learning and Care: Provides $5 million General Fund for the Secretary of Health and Human Services Agency, in concurrence with the executive director of the State Board of Education, to contract with a research and analysis entity to create a Master Plan to ensure comprehensive and affordable child care and universal preschool. Funding appropriated in the Budget Act for these purposes would be used for studies on the following: a fiscal framework to expand early learning and care in the state; early learning and care facility needs statewide; needs for services by families eligible for subsidies, including those not currently receiving services; a quality improvement plan to support all types of providers; steps necessary to provide universal pre-kindergarten for all three and four-year-old children. This work shall be compiled in a report, or series of reports, released on a continuing basis and shall be completed on or before October 1, 2020, and provided to the Governor, the chairpersons of the relevant legislative policy and budget committees, the Secretary of California Health and Human Services Agency, the executive director of the state board, the Superintendent, and the Director of Finance.</td>
<td>☑</td>
</tr>
<tr>
<td>CA</td>
<td>Early Childhood Policy Council: Establishes a Council to advise the Governor, the Legislature, and the Superintendent of Public Instruction on statewide early learning and care policy, building on the work of the state’s Master Plan for Early Learning and Care and the 2019 CA Blue Ribbon Commission on Early Childhood Education Final Report. The Council shall include 27 appointed members, as specified. The Council shall consult with a parent advisory committee and a workforce advisory committee. The CDE shall provide staffing to the Council and up to $300,000 of funds provided for the Council may be used for this purpose.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Childcare Providers Collective Bargaining: Provides $10 million in one-time General Fund for CDE, DSS, Department of Human Resources, and the Public Employment Relations Board for costs associated with implementing child care organizing. Requires each department to submit expenditure plans and allocates the funds contingent on DOF approval and notification of the Joint Legislative Budget Committee. Requires CDE and DSS to collect contact information for child care providers to make available to provider organizations for organizing purposes.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Adverse Childhood Experiences (ACEs) Screenings: The Budget provides $40.8 million ($27.2 million federal funds and $13.6 million Proposition 56 funds) to DHCS for ACEs screenings for children and adults in the Medi-Cal program. Beginning no sooner than January 1, 2020, this proposal provides ACEs screenings to children and adults under age 65 at least once every three years, and supports increased referrals to appropriate services depending upon screening results. DHCS will work with stakeholders to develop a screening tool for children and will utilize an existing assessment for adults.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Emergency Child Care Bridge Program: Provide $10 million ongoing General Fund until December 31, 2021.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Increase CalWORKs Grants to 50 percent of the Federal Poverty Level: The Budget increases CalWORKs grant levels by 13.1 percent, effective October 1, 2019, which will bring monthly grant payments to 50 percent of the projected 2019 federal poverty level. For a three-person assistance unit, the maximum monthly grant level will be $888, an increase of $103. The Budget includes $347.6 million General Fund in 2019 (“20 ($455.4 million General Fund annually thereafter) to fund this grant increase.</td>

<tr>
<td></td>
<td>Paid Family Leave: Extends the maximum duration of a Paid Family Leave benefit claim from 6 weeks to 8 weeks for all bonding and care-giving claims, beginning July 1, 2020, and sets a policy goal of 90 percent wage replacement. Reduces the reserve requirement for the fund that supports the Paid Family Leave program from 45 percent to 30 percent beginning July 1, 2019. This change will enable the state to make a down payment in expanding Paid Family Leave in the upcoming budget year while maintaining an adequate reserve. Over the course of the year, the Administration will convene a task force to develop recommendations by November 2019 that consider different options to phase-in and expand Paid Family Leave to allow a newborn or newly adopted child to be cared for by a parent or a close relative for up to six months by 2021-22.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Earned Income Tax Credit (EITC): Makes changes to significantly expand the EITC by raising the annual income recomputation floor from 3.1 percent to 3.5 percent, revising the calculation factors to increase the credit amount for certain taxpayers, raising the maximum income to $30,000, and providing a refundable young child tax credit not to exceed $1,000 per each qualified taxpayer per taxable year.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Diaper Tax Exemption: Exempts children’s diapers from sales taxation beginning January 1, 2020, with a December 31, 2021 sunset.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Developmental Screenings: Provides $53.9 million ($30.8 million federal funds and $23.1 million Proposition 56 funds) for DHCS to increase developmental screenings for children. Developmental screenings assess a child’s educational, social, and emotional development and are recommended for children at nine months, 18 months, and 30 months of age.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Value-Based Payment Program: Provides $250 million one-time Proposition 56 funding for the Value-Based Payments over the next several years. The Value-Based Payment program offers financial incentives to health care providers that improve their performance on predetermined measures or meet specified targets that focus on quality and efficiency of care. Of the amount allocated in this item, $70 million shall be used for behavioral health integration. The funds appropriated for these purposes are available for expenditure until June 30, 2022.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Reimbursement Rate Adjustment Factor for Children with Exceptional Needs: Applies Reimbursement Rate Adjustment Factor for Children with Exceptional Needs to Part-Day State Preschool Programs. Rate adjustment factors are intended to account for the higher costs of serving children in specific categories. This specific rate adjustment factor previously applied only to full-day state preschool programs.</td>

<tr>
<td>CA</td>
<td>Cal Grant Access Awards for Student Parents: The Budget provides $125 million General Fund to increase or provide new access awards for students with dependent children attending the University of California, the California State University, or the California Community Colleges. New or renewal Cal Grant A students will receive an access award of up to $6,000. New or renewal Cal Grant B students will see their access award increase from $1,648 to $6,000. Cal Grant C students will see their book and supply award increase from $1,094 to $4,000. These access awards and increased award levels will better enable students with dependent children to meet their families’ basic needs and increase their likelihood of degree completion.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Child Savings Account Program: Establishes the grant program under the administration of the California Student Aid Commission to support local governments and nonprofit organizations that sponsor or collaborate on one or more comprehensive city-wide or regional child savings account programs. This grant program aims to support and encourage families to build assets for their children’s post-secondary education. These pilot programs will support development or strengthening of cost-effective models that can be replicated or expanded to increase access to Child Savings Accounts among incoming kindergartners. The accounts are designated for a specific child to build assets over time through contributions from governments, society, family, friends, or the child. The accounts are generally opened with an initial contribution, or seed money, from a sponsoring organization such as a government agency, nonprofit, or philanthropic foundation. Eligible uses of the accounts are for tuition (normally for post-secondary education such as college, vocational, or technical schools), room and board, books, supplies and equipment, and mandatory fees.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Trauma Screening Provider Training: Recognizing the need to train providers who will be administering screenings for trauma for children and adults, the Budget provides $50 million ($25 million federal funds and $25 million Proposition 56 funds) for this purpose.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>The Budget also provides $239 million in one-time funds to the California State University that can be used for child care infrastructure for students on college campuses.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Quality Counts CA: $2.2M ongoing federal funds to improve child care quality through Quality Counts CA.</td>

<td>PASSED</td>
</tr>
<tr>
<td>-------</td>
<td>--------------------------------------------</td>
<td>--------</td>
</tr>
<tr>
<td>CA</td>
<td>Early Learning and Care Workforce Development Grant: $195 million one-time General Fund over five years to make a significant investment in the education of the child care workforce to improve the quality of care and move child care professionals along the early education/child care professional continuum. Adopts trailer bill language to expand trainings, ensure stipends and professional development align with Quality Counts CA.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Universal Preschool: As a first step toward universal preschool, the Budget increases access to the existing State Preschool program for all low-income four-year-olds. To provide full-day, full-year access to State Preschool to all eligible low-income four-year-olds, the Budget provides $124.9M non-Proposition 98 General Fund and additional investments in the two succeeding fiscal years to fund a total of 10,000 slots. Given limited capacity at LEAs, the additional slots will be provided by not-for-profit providers. To ensure that otherwise eligible four-year-old children can access a full-day, full-year State Preschool program, the Budget eliminates the existing requirement that families with four-year-olds provide proof of parent employment or enrollment in higher education to access the full-day program. To allow non-LEA providers to draw down full-day, full-year reimbursement from a single funding source, and to provide them with flexibility to make better use of their contract funding, the Budget shifts $297.1 million Proposition 98 General Fund for part-day State Preschool programs at non-local educational agencies to non-Proposition 98 General Fund.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Early Learning and Care Infrastructure Grant Program: $142.7 million one-time General Fund to be expended over five years to expand subsidized child care facilities in the state.</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Child Care Spaces: Provides $93.3 million ($80.5 million ongoing Proposition 64 and $12.8 million ongoing Federal Child Care and Development Block Grant (CCDBG)) for the Alternative Payment (AP) Program. This is equivalent to approximately 9,459 AP slots. Provides $50 million one-time General Fund for General Child Care with a shift to Proposition 64 funds in out-years. This is equivalent to approximately 3,086 General Child Care spaces. Provides an estimated 8,627 slot caseload increase to CalWORKS child care programs, due in part to a significant policy change in the Budget Act to expand 12 month eligibility to Stage 1 families, aligned to SB 321 (Mitchell).</td>
<td>✓</td>
</tr>
<tr>
<td>CA</td>
<td>Special Education Early Intervention Preschool Grant: Creates a grant provided to LEAs based on the number of three and four-year-olds with exceptional needs, specifically students with Individualized Education Plans (IEPs). Requires ongoing funding to be contingent upon the passage of legislation in the 2020â€“21 budget to reform the special education system to improve outcomes for students.</td>

<td>--------</td>
</tr>
<tr>
<td>CA</td>
<td><strong>Full-Day Kindergarten Facilities Grant Program:</strong> Provides $300 million one-time General Fund to eligible school districts to construct new or retrofit existing facilities for full-day kindergarten programs or to fund other activities that reduce barriers to providing full-day kindergarten. Makes changes to the existing program so funding is better targeted at expanding access to full-day kindergarten programs: prioritizes schools converting part-day to full-day kindergarten programs; provides a greater fiscal incentive and support for districts to participate in the program, by increasing the state share of the facility grant from 50 percent to 75 percent for schools converting from part-day to full-day kindergarten; allows for any remaining grant funding to be used for other one-time costs to implement the full-day kindergarten program; specifies that participation in the Full-Day Kindergarten Facilities Grant program does not impact a district’s eligibility in the School Facility Program. The program will continue to prioritize available grants toward school districts with high rates of students receiving free and reduced-price meals and enable eligible school districts to qualify for financial hardship funding similar to the traditional K-12 facilities program.</td>
<td>‣</td>
</tr>
<tr>
<td>CA</td>
<td>Provides an additional $10 million in one-time non-Proposition 98 General Fund for the California Department of Education (CDE) to develop a new early learning data system.</td>
<td>‣</td>
</tr>
<tr>
<td>CA</td>
<td><strong>CA Cradle-to-Career Data System:</strong> Provides $10 million one-time non-Proposition 98 General Fund available for encumbrance and expenditure through the 2021–22 fiscal year to plan for and develop the California Cradle-to-Career Data System. This system will connect student information from early education providers, K-12 schools, higher education institutions, employers, other workforce entities, and health and human services agencies. Funding shall be provided to the Governor’s Office of Planning and Research to contract with planning facilitators to lead a workgroup comprised of representatives from education, workforce, health, and other relevant agencies. By July 1, 2020, the workgroup shall report to the DOF and the Legislature on the proposed structure of the data system, including governance, architecture, and functionality of the system. By January 1, 2021, the workgroup shall report to the Department of Finance and the Legislature on additional details regarding the data system.</td>

<td>$7M was requested in 2020-21 to provide the state share of funding for SAUs to develop public preschools to achieve availability of preschool education state-wide. This funding was removed from the budget.</td>
</tr>
<tr>
<td></td>
<td>After several years and multiple renditions, the bipartisan LIFT and STEP bills gained unanimous passage this session. Through these two important pieces of legislation, Maine can take real steps to help families in poverty meet their basic needs and ensure economic opportunities for those families once they are stabilized and able to take advantage of them.</td>
</tr>
<tr>
<td></td>
<td>$840,000 will provide for the implementation of a statewide Early Childhood Consultation program, in which early childhood mental health professionals work with teachers, providers, and parents to promote appropriate social and emotional development and manage challenging behaviors in children to help them be more successful in the classroom.</td>
</tr>
<tr>
<td></td>
<td>After the deaths of two young girls last year and an emergency session to bring forward child welfare reform legislation, this session saw the advancement of many additional bills designed to shore up the child protective system and to support families in crisis. Some bills that made it through included: increasing funding to strengthen the Child Welfare Ombudsman program; creating a more reasonable process for certification of foster homes to increase their numbers; continuation of MaineCare coverage for access to mental health and substance abuse treatment to parents working to rehabilitate and reunify with children in state custody; and significantly, legislation to establish caseload limits for child protective caseworkers, to ensure they have the time and resources to carefully assess and meaningfully work with families in their care.</td>
</tr>
<tr>
<td></td>
<td>Legislation to provide for the implementation of a statewide Early Childhood Consultation program, in which early childhood mental health professionals work with teachers, providers, and parents to promote appropriate social and emotional development and manage challenging behaviors in children to help them be more successful in the classroom, was signed into law by Governor Mills on June 27, 2019.</td>
</tr>
<tr>
<td></td>
<td>Legislation to convene a stakeholder group to determine the state’s capacity to provide early and period screening, diagnostic and treatment services (EPSDT) also passed.</td>
</tr>
</tbody>
</table>
This session saw the passage of three bills addressing the danger posed to child exposure to lead, through the strengthening of the Lead Poisoning Control Act, a bill to expand access to lead screenings at well-child visits for 1- and 2-year-olds, and legislation requiring public schools to test drinking water regularly for levels of lead.

$1,000,000 would stabilize the home visiting work force by bringing salaries of home visitors in line with comparable positions and to reduce any waiting lists for home visiting services to provide child development education and skills development for new parents. This was carried over to the 2nd legislative session.

$3,050,000 would provide funding to support the early childhood workforce that educates and cares for our youngest children, ensuring parents have adequate child care so they can work. The bill was carried over to the 2nd session.

Governor Mills proposed a bond package that includes $5 million to support a child care facilities bond. The bond will support grants and low-interest loans for expansion of new child care facilities. The program, if passed by the voters, would be administered by the Department of Economic and Community Development.

$511,000 would provide greater access for vulnerable populations of children by addressing the higher cost of operating for high-quality licensed programs for infants and toddlers than for older children, by setting child care rates that cover the actual operating cost to providers. This funding would also create contracts for high-quality care and offer a greater subsidy reimbursement for them. This bill was carried over to the 2nd session.

$22,500,000 establishes criteria for state-funded slots for families living in poverty and those in households affected by substance use or mental health disorders. This bill was carried over to the 2nd session.

Legislation would create the First 4 ME Early Care and Education program to provide comprehensive, high-quality early care and education services for at-risk children who have not yet entered school. The bill is based on an Early Head Start Child Care partnership grant that created the Elevate Maine project in Skowhegan. The bill would support 10 community pilot projects to support children and their parents by funding projects that integrate Head Start’s comprehensive services in center-based and family child care settings. A Community coalition would develop and submit an application for funding based on community needs. This bill was carried over.

</tr>
<tr>
<td></td>
<td>Governor Mills proposed a bond package that includes $5 million to support a child care facilities bond. The bond will support grants and low-interest loans for expansion of new child care facilities. The program, if passed by the voters, would be administered by the Department of Economic and Community Development.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>$511,000 would provide greater access for vulnerable populations of children by addressing the higher cost of operating for high-quality licensed programs for infants and toddlers than for older children, by setting child care rates that cover the actual operating cost to providers. This funding would also create contracts for high-quality care and offer a greater subsidy reimbursement for them. This bill was carried over to the 2nd session.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>$22,500,000 establishes criteria for state-funded slots for families living in poverty and those in households affected by substance use or mental health disorders. This bill was carried over to the 2nd session.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Legislation would create the First 4 ME Early Care and Education program to provide comprehensive, high-quality early care and education services for at-risk children who have not yet entered school. The bill is based on an Early Head Start Child Care partnership grant that created the Elevate Maine project in Skowhegan. The bill would support 10 community pilot projects to support children and their parents by funding projects that integrate Head Start’s comprehensive services in center-based and family child care settings. A Community coalition would develop and submit an application for funding based on community needs. This bill was carried over</td>

### Afterschool
The 2019-2020 NYS Budget included new investments in two after school programs. Specifically, it maintained level funding of $22.3 million to the Advantage After School program, along with $10.7 million in new funds to support the minimum wage increase.

The Final Budget also increased investment by $10 million in the Empire State After-School program with $2 million reserved for school districts and community-based organizations located in high-risk areas in Nassau or Suffolk County. The other $8 million is targeted to applicants in school districts with high rates of student homelessness and communities vulnerable to gang activity. With the addition of these new funds, total investment in the program will rise to $55 million. These funds will allow an additional 6,250 students to engage in afterschool programs.

### Early Intervention
The 2019-2020 NYS Budget included a five percent increase in reimbursement rates for certain professionals providing Early Intervention services - occupational therapists, physical therapists, and speech language pathologists. This marked the first time the State had provided an increase in Early Intervention reimbursement rates since the 1990s.

### Pre-K
The 2019-2020 NYS Budget added $15 million in new funding for pre-K expansion, and funding for a new regional technical assistance center to support quality implementation and best practices in small districts. The Budget also secured all existing pre-K funding for the future, a total of nearly $850 million, supporting more than 120,000 3- and 4-year-olds.

### Child Care
The 2019-2020 NYS Budget included a $26 million increase over last year's child care subsidy funding. The new funds were used to hold subsidy reimbursement rates at the 69th percentile of the new market rate - which was released during April 2019. The Final Budget also included new investment of more than $2 million to expand the Infant-Toddler Resource Network, which provides critical training and supports to providers serving our youngest New Yorkers, and flat funding at $5 million for QUALITYstarsNY, the state's quality rating and improvement system. Finally, a total of $9,988,000 was allocated for the Child Care Facilitated Enrollment Projects, which support subsidies for families with slightly higher incomes (up to 275% of the federal poverty level), representing flat funding compared to last year's allocation. The State also directed Regional Economic Development Councils to prioritize child care in their 2019 plans.

### Pre-K
The state plans to undertake its first review of pre-K regulations in a decade, and includes proposals to strengthen quality standards, enhance multilingual education, and reduce suspensions and expulsions as well as other key improvements.

<td>The FY 2019-20 state budget was again passed ahead of the June 30 deadline, which is a rarity in Pennsylvania, this year largely due to a small surplus rather than the typical deficits we have been experiencing. The budget spends $33.9 billion, or an increase of 1.8% over FY 2018-19 and contains no broad-based tax increases.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Home visiting received a $5 million increase in the Community-Based Family Centers line item, which the amount the governor proposed. In the past three years PPC has worked in a coalition focused on home visiting funding, we have secured $16.5 million in additional dollars, or a 480 percent increase between the family center line and the dedicated line for Nurse Family Partnership.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>For CHIP, the budget included a $30.3 million increase (all state dollars). This was the first in a two-year roll-back of enhanced federal match from 89% to 67%. Another similar allocation of state funds will be required next year.</td>
<td>✓</td>
</tr>
</tbody>
</table>
The state budget cut the appropriation for child care by $36 million, with the legislature citing the back-fill of federal funds. The governor did not propose additional state dollars beyond federal CCDBG funds received ($67 million targeted to reducing the Child Care Works wait list, addressing tiered reimbursement and professional development).

On the education front, the budget included a $160 million increase for basic education funding (BEF), nearly matching the governor’s ask of $166 million. Special education received a $50 million increase, matching the governor’s proposal, while career and technical education received a $10 million increase in funding, also matching the governor’s proposal. A Special Education Funding Commission was also authorized in a school code bill that will release a report by November 30, 2019.

The budget contains a $30 million increase for pre-k (the governor proposed a $50 million increase), or 12 percent. In the past five budgets, pre-k has seen $145 million in increased investments between the Pre-K Counts Program and the Head Start Supplemental Assistance Program. A rate increase for Pre-K Counts was included as part of the budget, set at 2.95 percent.

The state’s school code bill included language that reduced the compulsory school age from 8 years to 6 years and increased it from 17 years to 18 years.

A bill authorizing the state Insurance Department to apply for a waiver to implement a state-based health insurance exchange was passed and will be implemented effective January 1, 2021.

</tr>
</tbody>
</table>
Texas lawmakers approved a $7 million general revenue increase for Department of State Health Services maternal health initiatives, including pregnancy medical home, AIM maternal safety bundles (at hospitals), initiatives for high risk pregnant women, and prevention and public awareness activities.

After years of state budget cuts and programs closing, policymakers allocated an additional $31M in state funds to support our IDEA Part C program for babies and toddlers with disabilities. This was the biggest infusion of state money into Texas ECI in over a decade.

As part of a $6 billion boost to public education, the state approved full-day pre-k funding through a new Early Education Allotment, which will distribute to districts an estimated $780 million per year for full-day pre-k or other early reading and mathematics strategies. The funding will be distributed as a 0.1 weight in the state's funding formulas for each student in kindergarten through third grade who is classified as economically disadvantaged and/or an English Language Learner.

HB 3, the legislature’s major school finance reform bill, provides ongoing investments in early childhood education, including funding for full-day prekindergarten. It also establishes new kindergarten through third grade reading standards, directs districts to develop an early childhood literacy and mathematics proficiency plan, provides funding for districts to provide additional days of instruction to reduce summer slide in the early years, and narrows the number of approved kindergarten readiness assessments to ensure data can be easily compared across the state.

SB 568 and SB 569 address child care safety minimum standards and the state’s oversight. SB 568 ensures more information is available to parents on the safety records of child care centers and strengthens the child care license renewal process, among other reforms. SB 569 increases oversight for a group of small in-home child care operations the state classifies as listed family homes.

SB 708 directs Health and Human Services to collect data on caregiver-child ratios and group size standards, as well as serious violations and injuries. The bill also directs the agency to make recommendations on ratios to the Legislature upon completion of the study.
The Legislature passed HB 18 and HB 19, two bills that ensure schools are better equipped to address a range of social, emotional, and behavior challenges that interfere with student’s health and education on a daily basis. HB 18 establishes training, policy, and planning requirements for school districts related to student mental health, the use of trauma-informed practices, and helping students develop social and emotional skills and learn about mental health. Thanks to HB 19, non-physician mental health professionals will be available as a dedicated resource to help schools meet these new requirements.

HB 680 assigns a unique child identification number to children in the subsidized child care program, which is also assigned to children in the public school system in an effort to connect these children from birth through high school (and beyond). The bill also mandated data reporting and transparency related to our subsidy and QRIS programs, more meaningful professional development paid for with public dollars, and the ability to use contracted slots as a method for increasing quality child care.

HB 65 directs the Texas Education Agency to collect information from school districts about out-of-school suspensions, including the basis for suspensions, the number of days students were suspended, and the number of suspensions that were inconsistent with the student code of conduct.

SB 952 updates and minimum child care standards for child care nutrition and active play to align with the recommendations of the American Academy of Pediatrics, American Heart Association, and American Public Health Association.

State Contact Information: David Feigen – dfeigen@txchildren.org

The legislature did not accept the Governor’s proposal for additional classroom observations, professional development, and curriculum enhancements in Virginia Preschool Initiative classrooms. While not funded in the state budget, some of this work will continue with the new federal grant Virginia received in December 2018 to improve our early childhood systems.

Despite support for the concepts of the Early Childhood Success Act to bring early childhood programs under the Department of Education, the bill failed in the House of Delegates. This means there will not be a signal from the legislature to move in this direction, nor will there be a legislature-sanctioned workgroup formed to explore potential models of oversight or the creation of an Innovation Fund.

<tr>
<th>STATE</th>
<th>BUDGET, LEGISLATIVE AND ADMINISTRATIVE ITEMS</th>
<th>PASSED</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>A small step forward to ensure children have access to school counselors. The final budget includes an increase of $12 million to support additional school counselors. This is a third of what the Governor initially included in his budget. A bill passed this session to limit counselors to spend no more than 20% of their time on other administrative duties to be more available to students.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The General Assembly increased the payment amount for Temporary Assistance for Needy Families by 5%, a $3.2 million investment. For the majority of kinship families, child-only TANF is the only program from which they receive financial assistance.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>Improved integration of children’s mental health services in primary care by establishing a pediatric mental health access program in Virginia. We are thrilled that the final budget includes $1.23 million per year to build out state-wide capacity for the Virginia Mental Health Access Program. VMAP will improve the identification and treatment of children’s mental health needs by offering physicians specialized children’s mental health training, access to on-demand behavioral health consultation services with child psychiatrists, and care coordination to identify regional mental health resources (like outpatient therapy) for children in need.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>More than 1,500 at-risk four-year-olds will have the opportunity to attend high-quality preschool. The final budget includes $6.1 million to continue VPI+ classrooms in 13 communities slated to lose a federal grant. While the Governor proposed covering the local match requirement for these communities, the legislature requires school divisions to put in local matching funds of up to 40% of the per pupil amount.</td>
<td>✓</td>
</tr>
<tr>
<td></td>
<td>The legislature passed an expansion of the Education Improvement Tax Credit Scholarship to pre-kindergarten (SB1015- Stanley). These scholarships would be available to middle-income families (300% of poverty, or 400% if the child has an IEP) to attend preschool programs with demonstrated quality (VCPE accredited, VA Quality level 3, or licensed and meeting other quality standards). The value of the scholarship would be the state share of the VPI per pupil amount, ranging from $3,163 in Fairfax to $5,219 in Lee.</td>

| CA    | Provide local coordination grants for counties operating the CalWORKs Home Visiting Program, to enhance coordination across home visiting systems where multiple efforts currently exist. Dedicate resources to cross-agency collaboration, particularly on data collection, evaluation, and training.  
Align California’s quality standards to create an articulated continuum of standards for health, safety, and child development. |
| CO    | Address maternal and infant mortality disparities  
Continue work to ensure all kids get a healthy start, with a particular focus on mental and behavioral health and supports to ensure successful implementation of recently passed early childhood discipline policies.  
Expand access to quality, affordable, and available child care through increased funding, tax credit strategies, and investigating the feasibility of contracted slots within the state's subsidy program through a pilot program.  
Increase access to pre-K via a likely 2020 ballot measure.  
Advocating for policy recommendations from the Infant and Family Child Care Home Strategic Action Plan, due to the legislature by December 1, 2019.  
Support the early childhood workforce by utilizing outcomes from state research studies to advance a policy agenda and support innovative local pilots aimed to increase the number of early childhood educators who enter and stay in the workforce.  
Working in partnership with 9to5 Colorado’s FAMLI Coalition, explore paid family leave, and lend the expertise of the early childhood field on the importance of paid family leave for families.  
Supporting family economic security by bringing the early childhood lens to issues related to health care access, safe and affordable housing, child tax credits, etc.  
Partnering with Mental Health Colorado, improve access to Early Childhood Mental Health Consultants for communities across the state.  
Reforming the state’s Early Intervention program to address the holistic needs of families and to support prevention rather than just intervention once a delay has occurred. |
| FL    | Support quality provisions of HB 1091 passed during 2018 Legislative Session to ensure differential payments and professional development are made available to Voluntary Prekindergarten providers consistent with school readiness providers.  
Establish parameters for the procurement of a VPK Readiness assessment that follows the recommendations set forward in the Committee for Early Grade Success report to adequately measure learning gains and readiness across all appropriate domains.  
Use increased Federal Funding for school readiness to implement HB 1091. |

<tbody>
<tr>
<td>GA</td>
<td>Ensure that Medicaid properly covers mental health screenings and services for parents, infants, and toddlers</td>
</tr>
<tr>
<td></td>
<td>Promote two-generation policies that support Georgia’s young children and their parents in the public, private, and higher education sectors</td>
</tr>
<tr>
<td></td>
<td>Improve data sharing and coordination among programs that serve Georgia’s young children, possibly by leveraging the implementation of the Preschool Development Grant</td>
</tr>
<tr>
<td></td>
<td>Increase pay and financial incentives, such as DECAL Scholars, for early childhood professionals, particularly for those serving infants and toddlers</td>
</tr>
<tr>
<td></td>
<td>9) Advocate for increased coordination between early childhood and K-12 education, particularly in Georgia’s implementation of the Every Student Succeeds Act</td>
</tr>
<tr>
<td></td>
<td>Increase funding for early intervention services and evidence-based home visiting programs</td>
</tr>
<tr>
<td>IL</td>
<td>The governor will be announcing a Finance Commission this fall to explore possible finance and governance changes to early childhood programs.</td>
</tr>
<tr>
<td></td>
<td>Continuing work to strengthen the early childhood workforce, with an emphasis on need for improved compensation.</td>
</tr>
<tr>
<td></td>
<td>Ongoing work in engaging new agency leaders and members of the administration</td>
</tr>
<tr>
<td></td>
<td>Increase Early Childhood Block Grant funding at the Illinois State Board of Education by $100 million to both expand access and strengthen program quality for prenatal-age 5 programs (included in the governor’s proposed budget)</td>
</tr>
<tr>
<td></td>
<td>Increase funding for the Child Care Assistance Program by $30 million to increase income eligibility to 200% FPL and encourage families to return to the program (included in the governor’s proposed budget)</td>
</tr>
<tr>
<td></td>
<td>Increase funding for Early Intervention services by $12 million to both respond to growing caseloads and provide a long overdue rate increase to providers in the system</td>
</tr>
<tr>
<td></td>
<td>Increase funding for home visiting programs in the Department of Human Services to strengthen those services which have been cut, level-funded and then unappropriated during the budget impasse</td>
</tr>
<tr>
<td></td>
<td>In any capital plan, include $250 million for early childhood facilities funding to schools and community-based programs</td>
</tr>
<tr>
<td></td>
<td>Advance efforts to connect the early childhood system with maternal and infant mortality/morbidity reduction strategies</td>
</tr>
<tr>
<td></td>
<td>Advance and support efforts to grow and strengthen the early childhood workforce in a range of settings. Connect proposals to improve the overall teacher shortage to the early childhood workforce ‘across the pipeline from child care licensing credentials through teacher licensure</td>

<td>Paid family leave</td>
</tr>
<tr>
<td></td>
<td>Pregnancy and employment discrimination</td>
</tr>
<tr>
<td></td>
<td>Trauma informed approaches</td>
</tr>
<tr>
<td></td>
<td>Tax Credit - For the first time in nearly 20 years, the General Assembly has expanded Maryland Child and Dependent Care Tax Credit increasing the income threshold from $50,000 to $143,000 for married couples (and to $92,000 for individuals), indexing these limits annually for inflation, and making the credit refundable for low-income filers.</td>
</tr>
<tr>
<td></td>
<td>Education Reform and Pre-K Funding - This legislation endorses the sweeping policy recommendations of the Commission on Innovation and Excellence in Education (better known as the Kirwan Commission) and requires a 3-year down-payment on the implementation of those recommendations, totaling approximately $1 billion. State funding for pre-kindergarten will expand by $31.7 in FY 2020 and an estimated $53.6 million in FY 2021.</td>
</tr>
<tr>
<td></td>
<td>Child Care Subsidy - Building on landmark legislation from 2018 to give parents access to quality care, this bill accelerates a mandated increase of child care subsidy rates. Beginning in July 2020, subsidy rates must equal or exceed 60 percent of market rates and must remain at or above the 60th percentile in the future.</td>
</tr>
<tr>
<td></td>
<td>Paid Family Leave - Incorporating recommendations from a blue-ribbon Task Force and following the enactment of paid parental leave for State employees in 2018, this bill sought to establish an insurance fund to provide partial wage replacement for Marylanders taking time away from work to care for new babies, loved ones with serious health conditions or disabilities, or themselves.</td>
</tr>
<tr>
<td></td>
<td>Care Coordination - MFN supported legislation, which would expand support for care coordination services for low-income pregnant women, postpartum women, and their children from birth to age three.</td>

</tr>
<tr>
<td>NM</td>
<td>During the 2019 Legislative Session, New Mexico created a stand-alone, cabinet level, early childhood department. The new department, to be phased starting in July 2020, will include home visiting, early intervention, child care licensing and assistance, mixed delivery PreK, and Head Start. A broad coalition of advocates and unexpected messengers contributed to build bipartisan support for the creation of this new department.</td>
</tr>
<tr>
<td></td>
<td>In addition to the creation of a new department, a new administration has also emphasized the importance of coordination of early childhood services between existing departments. While already established in statute, the incoming governor quickly appointed a director of the state’s Children’s Cabinet, tasked with ensuring alignment between health, public education, workforce, and more.</td>
</tr>
<tr>
<td></td>
<td>The 2019 Legislative Session also saw historic funding gains for early childhood education. Overall, appropriations for early childhood programs from FY19 to FY20 increased $45 million, or 16 percent. This outpaced the 11 percent overall increase to the state’s budget. These increases included $24 million in new money for PreK (a 38 percent increase!), $2 million for home visiting, $10 million for child care, $7 million for early intervention, and $3 million for early childhood scholarships and wage supplements. Additionally, the FY20 budget sets aside money to expand the state’s pilot of using Medicaid to pay for home visiting services.</td>
</tr>
<tr>
<td></td>
<td>Implementation of the new early childhood department</td>
</tr>
<tr>
<td></td>
<td>Identification of a dedicated, adequate funding stream for early childhood programs.</td>
</tr>
<tr>
<td></td>
<td>Expanding the pipeline to train and prepare a highly effective early childhood workforce.</td>
</tr>
<tr>
<td>NY</td>
<td>Our 2020-21 budget and legislative agenda is not yet final, but we expect it to include advocacy in support of a robust expansion of full-day pre-K outside of New York City, launching of an ambitious multi-year plan to dramatically expand access to high quality child care, and significant new investment in early intervention/preschool special education services. Our agenda will likely include these priorities:</td>
</tr>
<tr>
<td>STATE</td>
<td>AGENDA AND EXPLORATORY ITEMS</td>
</tr>
<tr>
<td>-------</td>
<td>-----------------------------</td>
</tr>
<tr>
<td>NY</td>
<td>Child Care: Support and encourage New York’s newly convened Child Care Availability Task Force to develop and begin to implement an ambitious plan to make high-quality child care in NY universally accessible and affordable; to ensure the child care workforce is fairly and equitably compensated, well-supported, and provided professional development opportunities; and to align and integrate child care with other early childhood systems. In the short-term, advocate for building block investments to expand access to quality child care to more low-income working families, particularly those with babies and toddlers, and to increase compensation and support for the child care workforce, while at the same time putting New York on track for a longer-term transformation of its child care system.</td>
</tr>
<tr>
<td></td>
<td>Pre-K: Expand Pre-K for 3- and 4-year-olds, with attention to rates to support a highly-qualified workforce in all settings.</td>
</tr>
<tr>
<td></td>
<td>Preschool Special Education: Advocate for an increase in tuition rates for preschool special education programs to help address the shortage of these programs. In the past several years, more than 60 preschool special education programs in New York have closed, often citing insufficient tuition rates, resulting in preschoolers with disabilities waiting months or longer for seats in the programs they need and have a legal right to receive.</td>
</tr>
<tr>
<td></td>
<td>Home visiting: We expect that the Development Plans/Final Report coming out of the NYS Home Visiting Coordination Initiative (HVCI) in December will inform our budget and policy requests.</td>
</tr>
<tr>
<td></td>
<td>After school: Advocates are discussing this year’s budget request, which may include changes to the two NYS after school programs -- Advantage and Empire State -- to create synergy between the two.</td>
</tr>
<tr>
<td></td>
<td>Family Economic Security: Advocate to strengthen New York’s working family tax credits beginning with its child tax credit (the Empire State Child Credit), to reduce child poverty by expanding the credit to cover children under age four (who are currently excluded from the credit), enhancing the credit for these young children.</td>
</tr>
<tr>
<td></td>
<td>In December 2018, New York’s Governor convened the Governor’s Child Care Availability Task Force. Many advocates, providers and parents have been appointed to the Task Force - and we are working collaboratively, and effectively -- together with dedicated state partners -- to move the work forward. The Task Force has been meeting regularly, and has made some important progress. It has adopted ambitious guiding principles, committed to making interim, budget recommendations this fall; and have secured public and private funds to staff the task force. While this is very much a work in progress, there seems to a real possibility that this Task Force will emerge with ambitious recommendations to make high-quality child care in NY universally accessible and affordable; to ensure the child care workforce is fairly and equitably compensated, well-supported, and provided professional development opportunities; and to align and integrate child care with other early childhood systems.</td>
</tr>
<tr>
<td></td>
<td>The NYC Comptroller recently released a bold new proposal to dramatically expand child care for babies and toddlers in NYC. He proposed to fund NYC Under 3 with a new payroll tax projected to add $664 million for child care. The comptroller’s proposed tax, which needs state approval, draws attention to the need to identify alternative funding strategies for early childhood services.</td>
</tr>
<tr>
<td>STATE</td>
<td>AGENDA AND EXPLORATORY ITEMS</td>
</tr>
<tr>
<td>-------</td>
<td>-----------------------------</td>
</tr>
<tr>
<td>NY</td>
<td>Home Visiting: With funding from the Preschool Development Grant and technical assistance from the Ounce, we have undertaken the NYS Home Visiting Coordination Initiative (HVCI), an effort to better coordinate services and supports across home visiting programs at the regional and state levels. Between now and the end of December, HVCI will work with 10 regional backbone organizations to hold at least two summits per region, with programs, partners, and parents at the table. These facilitated summits will result in the creation of 10 Development Plans and a comprehensive final report that will be delivered to policymakers and other stakeholders. The Schuyler Center will contribute updated county and regional data to inform the process. In addition, the Ounce will facilitate the second of two meetings with state agency representatives and the Governor’s Office in an effort to create a more comprehensive plan for service delivery at that level. We expect the regional recommendations to inform our budget and policy requests going forward.</td>
</tr>
<tr>
<td>OK</td>
<td>Prioritize the need for greater expansion and support of rural child care through participation in the Alliance for Early Success Rural Child Care Learning Collaborative.</td>
</tr>
<tr>
<td></td>
<td>Secure funding through the Preschool Develop Grant (Birth-Five) to support and enhance early care and education systems based on a comprehensive needs assessment and five year strategic plan.</td>
</tr>
<tr>
<td></td>
<td>Implement an early childhood integrated data system to capture an unduplicated count of early care and education program participation and inform future investments in early childhood.</td>
</tr>
<tr>
<td></td>
<td>Focus on equity in early childhood by identifying policies that contribute to disparities and advocating for changes/revisions or enactment of new policies.</td>
</tr>
<tr>
<td></td>
<td>Reinstate the refundable earned income tax credit (EITC), impacting over 200,000 working families in the state. On average, EITC recipients have lost $121/year since 2016 when the legislature made the credit nonrefundable.</td>
</tr>
<tr>
<td></td>
<td>Childcare subsidies, administered through DHS through CCDBG received a 36% increase, or $32million more, through increased federal funding. With the new funding the Department of Human Services (DHS) will:</td>
</tr>
<tr>
<td></td>
<td>Increase provider reimbursement rates</td>
</tr>
<tr>
<td></td>
<td>• Eliminate a rate schedule for providers, in which rural providers received standard area reimbursement rates and metro providers received enhanced area reimbursement rates. Now all providers receive a rate that is the same for the entire state.</td>
</tr>
<tr>
<td></td>
<td>• Higher reimbursement rates for providers with nontraditional hours.</td>
</tr>
</tbody>

### Appendix

<table>
<thead>
<tr>
<th>State</th>
<th>Agenda and Exploratory Items</th>
</tr>
</thead>
</table>
| **OK** | DHS will expand program eligibility and reduce family copayments “went into effect March 1, 2019” -  
- DHS increased subsidy eligibility threshold to 85% of the state median income (SMI) based on family size. Previous threshold was 56-65% SMI.  
- Limited copayments to not exceed 7% of household income.  
- Families at or below the federal poverty level will now have zero copayments.  
- Lowered copayments for families with more than one child in childcare.  
- Program eligibility was extended to 12 months to meet federal guidelines.  
- Extended EHS-CC partnership subsidy policies to OECP (approved full time rate with absent day payments for children, parent’s schedule doesn’t have to match Oklahoma Early Childhood Program hours, waived family share copayments)  

DHS will invest in quality-enhancing initiatives  
- DHS partnered with Oklahoma Child Care Resource and Referral Association to hire an infant and toddler specialist at each of their eight regional offices and a manager at their state office.  
- Specialists receive training in infant/toddler development, impact of trauma, coaching practices and relationship-based care.  
- Funds are also being used to provide stipends and scholarships for child care workers to earn a college degree or obtain a certification in child care.  

Oklahoma has the second highest uninsured rate in the country, which leads to negative health outcomes across our state. To combat Oklahoma’s health care problem, SB993 was passed, which expands short-term insurance and association health plans (AHSPs) from six months to 12 months and allows for renewals for up to three years. These plans do not cover maternity care, do not cover pre-existing conditions, 40% do not cover mental health care, 70% do not cover prescription medications, and 70% do not cover substance-use disorders.  

Several Agency Reform Bills were passed that grant direct appointment authority to the governor, with senate confirmation, for the directors of five state agencies: Oklahoma Health Care Authority, Oklahoma Department of Human Services, Office of Juvenile Affairs, Department of Mental Health and Substance Abuse, and the Department of Transportation.  

â€œ SB193 reinstated certain class size requirements for kindergarten and first grade once the school is given resources to meet the requirements (no more than 20 students without an assistance teacher).  

| OR | Pass Student Success Act, with 20% of the revenue dedicated to early learning strategies (pre-k, head start, EHS, Early Intervention-Early Childhood Special Education, home visiting, professional development, and more)  

Create a task force to develop a plan for improving child care in Oregon  

Pass legislation to create contracted child care slots for infants and toddlers |

<tr>
<td></td>
<td>Reduce chronic absence in the early grades.</td>
</tr>
<tr>
<td>SC</td>
<td>Expand and improve prevention services for families at risk of entering the child welfare system.</td>
</tr>
<tr>
<td></td>
<td>Focus social service efforts on child protection and family capacity.</td>
</tr>
<tr>
<td></td>
<td>Consolidate and prioritize state level early childhood education, care, and development.</td>
</tr>
<tr>
<td></td>
<td>Expand existing successful voluntary home visiting programs that support families with children from prenatal to age five.</td>
</tr>
<tr>
<td></td>
<td>Promote fiscal policies that empower working families.</td>
</tr>
<tr>
<td></td>
<td>Promote policies that increase access to affordable and high quality early care, learning, and preschool opportunities.</td>
</tr>
<tr>
<td></td>
<td>Strengthen capacity and incentives for child care providers to participate in the state’s child care QRIS.</td>
</tr>
<tr>
<td></td>
<td>Align early childhood services to increase data-driven accountability, quality, and impact statewide. Support and incentivize the inclusion of children with disabilities in high quality early childhood programs.</td>
</tr>
</tbody>
</table>
### South Carolina (SC)

- South Carolina is in the middle of a 2-year legislative session (2019-20) in which K-12 education reform is a dominant topic of consideration. While the primary focus of the related legislation is within those K-12 ages, some significant discussion has included the “cradle to career” or “0-20 continuum, and also how early childhood investments improve outcomes for school-aged children.

- Like many states, South Carolina is working to come into compliance with the federal Families First legislation, and ultimately increase attention to preventing child maltreatment, which will involve policy changes currently under development at both an agency and legislative level.

### South Dakota (SD)

- Supporting an Early Learning Advisory Council South Dakota House Bill 2021
- Reach out to public and private partners to create a South Dakota Early Learning Resource Inventory
- Market for contributions to the SDAEYC Endowment Fund maintained under the South Dakota Community Foundation
- Visibility through establishing connections within the state through local initiatives -- presence at kids fairs, teacher events, parent events, letters to the editor.
- Form a SDAEYC student group at Black Hills State University. Currently there is a student group at the University of SD and SD State University.
- Robert Woods Johnson Foundation Grant thru NAEYC
- To create ‘flattening’ and transparently of services provided to professionals and families within the state. The current system has differing boundaries for agencies such as Head Start, Birth to Three, and the Early Childhood Enrichment System (5 centers throughout the state each having a different name and service area as stated). Only three examples are stated but this objective could focus on many other service areas.
- To bring a House Bill to the floor in 2021 to establish an Early Learning Advisory Council. Ground work is being initiated this year in preparation for 2021 as this bill has been defeated three previous years.
- A request was sent to a house member to consider a bill in 2020 creating ease of access to Early Care and Learning Resource services throughout South Dakota.
- Executing RWJF Grant funding in three goal areas of 1) identify and implement strategies focused on policy development, 2) Develop a marketing campaign that educates and promotes early learning across the state, and 3) Collect and disseminate relevant and accurate data about early learning in the state.
- Same as Policy Item 3 with regard to administering the Grant with partnering agencies and SDAEYC.

### Tennessee (TN)

- Pre-K to 3rd grade early literacy and math coaching pilot program for priority elementary schools
- Defend Voluntary Pre-K funding
- Expand evidence-based early home visiting programs

<td>STATE</td>
<td>AGENDA AND EXPLORATORY ITEMS</td>
</tr>
<tr>
<td>-------</td>
<td>-----------------------------</td>
</tr>
<tr>
<td>TX</td>
<td>Make prudent, critically needed reforms to Medicaid managed care “the health insurance program for many children, pregnant women, and people with disabilities in Texas” including steps that improve state oversight and coordination, better enforce provider network standards, and strengthen care coordination services so they work more effectively for families and health providers.</td>
</tr>
<tr>
<td></td>
<td>To address the uninsured rate for kids “the highest in the nation and getting worse” allow for kids who are currently eligible for Medicaid insurance to stay enrolled in for 12 continuous months.</td>
</tr>
<tr>
<td></td>
<td>Ensure the successful implementation of high-quality, full-day pre-k funding and standards, analyze new data collected, and elevate the quality of pre-k and early learning programs, including lowering class size, improving student-teacher ratios, expanding quality professional development, promoting early childhood mental health, and more.</td>
</tr>
<tr>
<td></td>
<td>Encourage the expansion of quality pre-k partnerships between school districts and high-quality child care and Head Start.</td>
</tr>
<tr>
<td></td>
<td>Ensure funding for early childhood intervention is adequate to sustain programs and effectively serve children.</td>
</tr>
<tr>
<td></td>
<td>Increase access to children’s health coverage and improve health and behavioral health services for children and families.</td>
</tr>
<tr>
<td></td>
<td>Develop a strategy to better support students of limited English language proficiency, or dual language learners.</td>
</tr>
<tr>
<td></td>
<td>Go beyond safety and agency oversight in child care to ensure all working parents have access to high-quality child care. Explore opportunities for the Legislature to appropriate state funds for child care instead of relying exclusively on federal funds.</td>
</tr>
<tr>
<td>VA</td>
<td>Provide early childhood teachers with tools for observation, assessment, and coaching that will improve the quality of instruction.</td>
</tr>
<tr>
<td></td>
<td>Sustain preschool opportunities for 1,500 at-risk four-year-olds losing federal grant funding.</td>
</tr>
<tr>
<td></td>
<td>Virginia should identify the framework to expand access and improve quality in all early childhood settings. This vision should articulate a process for the alignment of program goals and governance, collaborative data sharing, and measuring success.</td>
</tr>
<tr>
<td></td>
<td>Increase TANF payment rates for low-income working families and kinship caregivers.</td>
</tr>
<tr>
<td></td>
<td>Continue home visiting efforts to reach more at-risk families.</td>
</tr>
<tr>
